Gary,

We have been to the site this week to determine the equipment we need to access the tanks. We will begin gauging the tanks on Monday morning and I'll be glad to give you an update each day if you'd like.

We will submit a Monthly Progress Report for April by May 10<sup>th</sup>.

I have the Austin signatures but lack Paul Supak's signature. We will get that to you next week.

Steve:

See additional comments. You have already been given the authority to begin so I hope things have already started. Additionally, you should submit a monthly report that is due by the 10th of every month resuming May 10, 2011. Please make changes. Also, what is the status of the signature page/QMP for TRC?
